Coalition to Promote Independent Entrepreneurs

# For a Briefing On Independent Work and the American Economy

Long before the rise of the sharing economy, people from numerous industries and sectors enjoyed the flexibility, work-life balance and other benefits associated with pursuing meaningful, independent work. Please join the Coalition to Promote Independent Entrepreneurs for a discussion about the nature of independent work today and in the future, and how independent workers benefit the economy, as seen through the eyes of a leading labor economist and industries that rely on independent contractors.

**Tuesday, March 1**

2:00 PM - 3:00 PM
